 Note: 1 boar died in the quarantine he might have created offspring - no records

IN 2016 FROM THE NETHERLANDS
 3 Boars & 5 Sows

Sex	Age (year)	Withers height (cm)	Body weight (kg)
Sow	1	64-67	90-100
	2	72-73	120-140
	3	74-77	140-160
Boar	1	65-70	100-120
	2	75-80	130-150
	3	80-85	150-170

The lines that are available in the US are marked in color. The Hungarian boar lines of the imported Swallow belly pigs are not known. There was an other import of all 3 colors from Austria in 2011 to Auburn University. Information on this hopefully will follow. In 2016 some of these offsprings went to California to add extra blood lines to the red imports from 2014 & 2016
